DETAILED ACTION

This Office Action is in response to the amendment filed February 9, 2005 for the above identified patent application.

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1 and 18-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Shear, III et al. (US Patent 5,388,475).

The Shear reference teaches a ball screw nut comprising: a hollow screw threaded nipple (40) made of metallic material (see column 4, lines 45+) having a plurality of spiral grooves at the a screw inner surface for a plurality of rolling balls to roll along therein, said nipple having a through recess extending in a direction parallel to a longitudinal axis of said ball screw nut; a housing (12) formed of a plastic material (see column 4, lines 57+) completely circumferentially enclosing said screw threaded nipple, said housing and said screw threaded nipple being firmly engaged with each other, and at least one protruded block (14) that is insertable into said through recess for permitting a circulation of said rolling balls.

With respect to claim 18, Figure 10 if the Shear reference teaches the block being formed of a housing inner surface and protrudes into the through hole.

Response to Arguments

2. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
